

Instructional Technology Certificate

The Certificate for Instructional Technology Specialist provides a 15 hour graduate-level experience for school administrators, teachers and staff working at the school building level. The program provides for the acquisition of knowledge and skills necessary for supporting teachers and students. The certificate is interdisciplinary in nature and provides competencies in three core areas of Administration and Management, Technology Infrastructure, and Technology Integration in the teaching process. This certificate is an Missouri State University Certificate and does not meet Missouri State Certification requirements for teaching.
